Pickups: Godin Low-Noise single coil pickups

The Radiator's silver leaf maple chambered body adds a unique "hollow body" timbre to the overall sound. By removing the selector switch and wiring the pick-ups to individual volume controls the Radiator is capable of a wide variety of tones. By simply experimenting with different degrees of output from each pickup you'll be amazed at the different tonal qualities you'll be able to coax out of the Radiator. Here are a few suggestions:

### Surf tone

Neck Vol : 3

Bridge Vol : 10

### Jazzy

Neck Vol : 10

Bridge Vol : 3

Tone : 2-3

### Country
